36		8472004819	Hello Sir, I live in Kahilipara, Guwahati. My land is khas land and has not yet received a patta, whereas nearby plots already have patta. - Is it possible to get a construction loan on such land? - If not, is there any alternative way to proceed? - I am planning a 3BHK house, possibly G+1 if feasible—would this be an issue without a patta? - If a loan is not possible, can construction be done in phases without major legal or technical problems? - Could you also guide me on your consultation process? Do you visit the site, and what are the charges? Kindly advise.	02-05-2026

73		9394309805	Dear Jagya Construction Team, I hope you are doing well. I am planning to renovate my Assam-type house, which is around 30 years old. At the moment, I do not have a proper budget, so I am looking for only the most essential and minimal-cost repairs to make the house safe and usable. I would really appreciate your guidance on what basic work can be done at the lowest possible cost and if there are any flexible or phased options available. Kindly let me know if a site visit is possible or what details you would need from my side. Looking forward to your response.	23-04-2026

85	Arnab Jyoti Borgohain	7002572632	I would like to request an inspection of the top floor of my premises, which was recently constructed by another mason but has developed faults. Due to this, water is getting logged on the upper floor, leading to leakage issues. Kindly arrange for a mason to visit, assess the condition, and take the necessary steps to seal the leakage and resolve the waterlogging problem at the earliest. The materials required for the repair may be verified and finalized after the inspection. Please treat this on an urgent basis because we have recently installed a false ceiling which may get damaged due to heavy water logging. Thank you very much ? hoping for a positive response asap	20-04-2026
